CONSERVATION

On the trout and grayling waters, maximum bag limits are specified on permits to conserve stocks. On the salmon waters, the Club encourages restraint and endorses 'Catch and Release' as a valuable conservation tool. Anglers are expected to comply with the Club's policy on catch and release on Club salmon waters - details are included on all salmon permits.

General advice on trout and grayling fishing in the Pitlochry area is available from Ron Harriman (Club Secretary) 01796 472484. For salmon fishing information contact Innes Smith 01796 473651 (evenings).
